

It helps a pet to an active recovery after it has been spayed or neutered. It also eases discomfort from different skin conditions, sutures, wounds etc.

It is also a perfect diaper keeper to a female dog in heat.

D-sizes (D3, D4, D5 and D6) are made for dogs with wider chests and wider necks; Corgi, Pugs, French Bulldogs just to name a few.

They come in 2 models; Male (standard color blue) and female (pink).

Suits are available in 17 different sizes - designed for pets of different shapes and sizes. With its' snug fit, that feels like second skin.

VetHelps' products are made of breathable organic cotton (92% cotton and 8% elastane). It is dogs'/cats' and their owners' preferred alternative to a bulky plastic collar cone.

There is no need to remove VetHelps Recovery Suit when cat/dog needs to relieve themselves.

The pet owner doesn't need to stay home from work to take care of their pet after surgery.

Leg Covers are mostly used for covering up leg fractures, bedsores and fight inflicted bites/wounds. They are a lot more difficult for a pet to remove, which often is the case with a bandage.

Market your clinic with your logo and your own colors/pattern.

Recovery Line is developed by veterinarians for veterinarians. Manufacturing and Product Development is done in EU (Hungary) and sold to veterinarian clinics and pet stores in Germany, Austria, Hungary, Slovenia, Slovakia, Czech Republic and Romania.
